

## Welcome to Evolution Imaging . . .

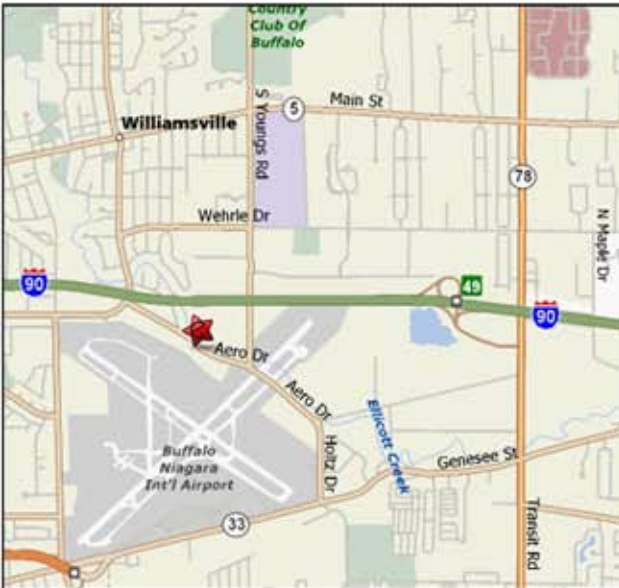

Your dental professional has referred you because your case may present certain challenges and he or she cares about the success of your case as well as your long term dental health.

Your CBCT scan will be performed using our state-of-the-art Iluma CT which allows you to remain comfortably seated while the armature attachment rotates around your head. This simple process typically takes only a few minutes to set-up and only seconds to perform your scan.

At Evolution Imaging our friendly staff strives to make sure your visit with us is comfortable and convenient so please inform us if you have any questions or concerns about the process.

We are conveniently located near the Buffalo-Niagara International Airport and Exit 49 off the New York State Thruway.

If you have questions about your appointment or need directions to our office, please call 716-839-8008 or visit [www.evolutiondental.net](http://www.evolutiondental.net)

Doctor—please sign here to approve payment via your partnership account

### Why CBCT ?

This quick, safe exam allows you to sit comfortably while the CT produces life-like views of your mouth. Once evaluated, these views provide your dental specialist with advanced information about your anatomy.
